Graph-1 Questions

Question 1 :

Detect cycle in an undirected graph using BFS

We have an an undirected graph, how to check if there is a cycle in the graph? For example, the following graph has a cycle 1-0-2-1..

Input :

9 - 5 - 2

| / |

1 4

Output : Yes

Question 2 :

Find Minimum Depth of a Binary Tree

We have a binary tree, find its minimum depth. The minimum depth is the number of nodes along the shortest path from the root node down to the nearest leaf node. For example, minimum height of below Binary Tree is 2.

Sample Input 1 :

```
      1
     / \
    8   2
   / \ /
  6  5 9
```

Sample Output 1 : 2

Question 3 :

Minimum time required to rot all oranges

We have a matrix of dimension $m \times n$ where each cell in the matrix can have values 0, 1 or 2 which has the following meaning:

0: Empty cell 1: Cells have fresh oranges 2: Cells have rotten oranges
